

T24- SPLIT CORE CURRENT TRANSFORMER

The T24 is a split core current transformer made to the highest quality, it has a 24mm diameter aperture and is designed to fit in applications with limited space.

- Available primary ratios: 100, 150, 200 and 250A
- Internal diameter aperture 24mm
- 5A Secondary
- Accuracy 0.5, 1 and 3 depending on the load

Dimensions in mm Height: 71mm Depth 52mm Width:39mm
